SKILLS

- **Languages:** C++, Java, C, Python, R
- **Frameworks:** HTML and CSS
- **Tools/Platforms:** MySQL, Excel, Tableau
- **Soft Skills:** Problem-Solving Skills, Team Player, Project Management, Adaptability

TRAINING

- **Geeks for Geeks: Data Structures and Algorithms (DSA)** May 2024 - July 2024
DSA
 - Gained hands-on experience with problem-solving techniques using C++/Java/Python.
 - Improved algorithmic thinking and coding efficiency by solving 100+ practice problems.
 - Developed a strong foundation in time and space complexity analysis.
 - Successfully completed a comprehensive course covering core DSA concepts including arrays, strings, linked lists, stacks, queues, trees, graphs, and hashing.

PROJECTS

- **Library Management System** Dec 2024 – Feb 2025
 - Developed a comprehensive Library Management System using C++ to streamline the management and organization of library resources, improving efficiency and user experience.
 - Implemented features such as book cataloging, member registration, and transaction management, enabling seamless tracking of book loans, returns, and availability.

Designed an intuitive user interface with search and filter options, ensuring easy navigation and quick access to library resources for both staff and patrons.

Tech: C++
- **Hotel Booking Management Website** Aug 2024– Nov 2025
 - Developed a dynamic website for hotel room booking with features like room search, availability check, user registration/login, and online booking.
 - Designed a responsive and user-friendly front-end using HTML, CSS, and JavaScript.
 - Built a functional back-end using PHP and connected it with MySQL for data storage.
 - Ensured data validation, error handling, and mobile responsiveness for a smooth user experience.

Tech: HTML, CSS, PHP and SQL

CERTIFICATES

- Complete Interview Preparation - Self-Paced (C++) by GFG. July 2024
- Prompt Engineering and Large Language Models by Goggle Cloud May 2024
- Excel Skills for Business by Coursera April 2024
- Mastering Data Structures and Algorithms using C and C++ by Udemy Nov 2023

ACHIEVEMENTS

- **Chatbot Development Project**
Built a chatbot using Python and Natural Language Processing (NLP) to simulate human-like conversations. The chatbot is designed to assist with simple tasks such as providing weather updates, setting reminders, and engaging in casual conversation.

Tech : Python, NLTK, ChatterBot

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 5.84** Since August 2022
- **Leed's Asian School** Gola road, Patna
Intermediate; **Percentage: 81%** April 2019 - March 2021
